WORK EXPERIENCE

Web Dev Intern

May 2023 – August 2023

Silicon Tech Nepal | Kathmandu, Nepal

- Developed a full-page website using React and Material UI.
- Utilized APIs to fetch and display dynamic data on the website.
- Collaborated with team members to troubleshoot and enhance systems.
- Participated in Agile sprint plannings, meetings, contribution to project discussions.
- Acquired proficiency in front-end development techniques and best practices.

PROJECTS

Note App, Note Web Application

[View in GitHub](#)

- Users can write, edit and delete notes.
- APIs have been created using the Django Framework.
- The data is being fetched in React using RESTful APIs.

IPL dashboard app

[View in GitHub](#)

- The website enables users to browse their favorite IPL teams and access details of their past games, including win-loss ratios.
- The website utilizes Spring Boot for its API and React for its front-end.

Friendly Mart, E-Commerce Website

[View in GitHub](#)

- The e-commerce websites have user and guest checkout capabilities, utilizing Django as the back end and HTML, CSS and JavaScript for the front-end.

Covid 19 Tracker, Covid Visualize Data

[View in GitHub](#)

- This is a ReactJS COVID Tracker App that I created as a single-page application.
- It provides details on COVID data based on the API provided by <https://disease.sh/>.

Customer Management System

[View in GitHub](#)

- The website uses HTML, CSS, and JavaScript for the front-end, Django for the back end, and PostgreSQL for the database.
- The administrator can add customer details and their orders to the database, and the web page displays the rendered data.

Sunset Lodge, Hotel Website

[View in GitHub](#)

- This is a complete hotel website that I created using React and Material UI.

EDUCATION

Bsc. In Computer Science

2018 - 2023

Kathmandu University - Dhulikhel, Kavre, Nepal.
